ODYSSEY

Fall/Winter 2019-20

We take many journeys, daily journeys, pleasurable journeys, long journeys and life journeys. The main journey is the one you take for yourself, your own odyssey. This season's journey is one of experiences and memories that evoke deep fall nature colors. Unique fabric blends that work together charmingly and the quality of being powerfully and mysteriously attractive or fascinating depicts moskiddos' Fall/Winter's 2019/20 odyssey. Enjoy the journey understanding that your odyssey is what makes you special and captivating as the clothes you wear.

O D Y S S E Y

This image drives me nuts. Absolutely crazy. I do not know if I see you or if I see an image of you, if you are alone in the picture... if you like the jumpsuit or if it annoys you, how you break the geometry, how you let yourself reflect... how you pose serene in front of so much bewilderment... What a trip indeed...
